

Reducing Bushings, Reducing Couplings, and Plugs

RE = Reducers

RE style reducers reduce conduit hubs to a smaller size. They are provided with an integral bushing to prevent conductor damage and full, clean cut threads for ease of assembly. **All RE reducers are coated inside and out with gray polyurethane for corrosion protection.**

REC = Reducing Couplings

Procoat reducing couplings are used to connect two pieces of conduit of different size.

PLG = Plugs

PLG style plugs are used to close unused conduit hubs. They are available with either recessed square drive sockets or raised square drive heads. **All PLG plugs are coated with polyurethane on non-threaded surfaces for corrosion protection.**

REDUCING BUSHINGS

PIPE SIZE	FERROUS CATALOG #	NOMINAL WEIGHT
3/4" - 1/2"	RRB2015P	0.2
1" - 1/2"	RRB2515P	0.7
1" - 3/4"	RRB2520P	0.5
1-1/4" - 1/2"	RRB3215P	0.8
1-1/4" - 3/4"	RRB3220P	0.8
1-1/4" - 1"	RRB3225P	0.8
1-1/2" - 1/2"	RRB4015P	0.9
1-1/2" - 3/4"	RRB4020P	0.9
1-1/2" - 1"	RRB4025P	0.9
1 1/2" - 1-1/4"	RRB4032P	0.9
2" - 1/2"	RRB5015P	1.1
2" - 3/4"	RRB5020P	1.1
2" - 1"	RRB6025P	1.2
2" - 1-1/4"	RRB6032P	1.3
2" - 1-1/2"	RRB6040P	1.6

Standards:

- NEC/CEC:
 - Class I, Division 1 & 2, Groups A, B, C, D
 - Class II, Division 1, Groups E, F, G
 - Class II, Division 2, Groups F, G
 - Class III

All REC, RE, and PLGs meet Class I, Division 1 & 2, Groups C, D. REs & PLGs meet the above standards only when used in conjunction with hazardous location fittings.

REDUCING COUPLINGS

PIPE SIZE	FERROUS CATALOG #	NOMINAL WEIGHT
3/4" - 1/2"	*RRC2015P	0.2
1" - 1/2"	*RRC2515P	0.7
1" - 3/4"	RRC2520P	0.5
1-1/4" - 3/4"	RRC3220P	1.0
1-1/4" - 1"	RRC3225P	0.8
1-1/2" - 3/4"	RRC4020P	1.4
1-1/2" - 1"	RRC4025P	1.2
